This summer we have yet another set of ambient grooves from **TRANCE MISSION** on *Head Light* (City Of Tribes, 3025 17th St., San Francisco, CA 94110 415.621.1549). The innovative quartet of Custer, Newby, Kent and Loose takes its reeds, drums, sequences and didgeridoos on a heady ride. More centered and higher in energy than the foursome's previous recordings together, this album transmits more of the feel of *Lights In A Fat City*, an earlier Stephen Kent band whose rawness was well balanced by a '60s transcendental streak that permeates all of *Head Light*.
